

Hello

My names James Oconnell and I'm an ambitious multi-disciplined creative from Manchester. I get my thrills from being able to craft effective designs that have the ability to influence their users. The knowledge I've collected through my career has enabled me to see projects from initial conception through to completion, infinitely increasing my approach towards creative solutions, not to mention picking up the odd award here and there.

I could tell you about the work I've completed for big clients, all the deadlines I've kept to, but this is only a small portion of what I offer as a creative. I offer my ideas, my enthusiasm and my unquenchable thirst to drive onwards & upwards.
